DRAPERY HARDWARE

HARDWARE FEATURES

- Hand-Draw Traverse System Features:
 - One-way and center draw traverse kits available in 4' and 8' lengths.
 - 1" traverse rod cannot be used with finials. Can only be utilized with end caps, inside mounts or as a secondary rod in conjunction with double bracket.
 - Kits include: aluminum traverse rod, 16 glides for 4' and 32 for 8'; 1 master carrier with overlap arm for one-way draw and pair of master carriers with overlap arm and standard arm for center draw, aluminum, top-mount brackets (2 for 4', 3" for 8') and 2 end stops.
 - 1" brackets have a 3.5" projection and 1.5" brackets have a 3.75" projection.
 - 1" rod includes nylon glides, 1.5" rod includes roller glides with ball bearings. Both provide for smooth and easy movement of draperies.
 - One-way and center draw feature reversible master carrier arm(s) (standard and overlap) so that overlap can be left over right or right over left
- Collection includes functional accessories
- Color variation in the finishes may vary from piece to piece; it is to be expected and appreciated.
- This collection is made of metal.
